UNITED STATES INTELLIGENCE BOARD

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT: NIE 11-8-59

1. Attached for information is a copy of a memorandum from General Breitweiser recommending that GMAIC be directed to undertake a re-examination of the evidence bearing on the ICBM portion of NIE 11-8-59.

2. The Air Force is scheduled to give Mr. Dulles the briefing referred to by General Breitweiser at 1000 next Thursday, 25 February. We believe it would facilitate consideration of General Breitweiser's proposal if other Board members could attend the same briefing and discuss General Breitweiser's suggestion following that briefing rather than at the next regular USIB meeting. If any Board members would be seriously inconvenienced by such a Thursday Board meeting or otherwise object to this procedure please advise the Secretariat, preferably before the next Board meeting on Tuesday, 23 February, at 1430.
